

Index Support Curve

Part No. 4196005
List price: \$695

Index support curves are an effective upgrade to your feeder for faster changeover and increased profit.

- The support curve is the most critical piece for separation performance of your feeder.
- Utilizes a measurement scale to record product stacking adjustments for recipe set-ups.
- Provides simple changeover. Adjust 1 angle per axis at a time.
- Fits all Multifeeder friction feeders. Including the Washdown series.
- Allows for easy set-up. Saves you time and money!

Easy to read measurement units for recipe set-ups
